ROSWELL, Ga.--(BUSINESS WIRE)-- SiteOne Landscape Supply, Inc. (the "Company" or "SiteOne") (NYSE: SITE) announced earnings for its first quarter ended March 30, 2025 ("First Quarter 2025").

"We are pleased to report a solid start to 2025, with total sales growth of 4% and Adjusted EBITDA growth of 6%. We were particularly pleased to achieve good SG&A leverage in our base business on an adjusted basis despite the Organic Daily Sales decline," said Doug Black, SiteOne's Chairman and CEO. "With the current uncertainty in the market, we are focused on delivering a solid year of performance and growth with strong cost control, good gross margin management, and by continuing to gain market share through our commercial initiatives. We also continue to execute our acquisition strategy with the addition of two high-performing companies year-to-date and with a robust pipeline of additional target companies. As we look ahead, we remain confident in our ability to navigate the current market conditions, execute our plans, and deliver superior value to our customers and suppliers to achieve excellent long-term value for our shareholders through organic growth, acquisition growth and Adjusted EBITDA margin expansion."

First Quarter 2025 Results

Net sales for the First Quarter 2025 increased to \$939.4 million, or 4%, compared to \$904.8 million for the prior year period. Organic Daily Sales decreased 1% compared to the prior year period due to a later start to the spring selling season, lower prices for commodity products, and a softer repair and remodel end market. Acquisitions contributed \$45.1 million, or 5%, to Net sales growth for the quarter.

Gross profit increased 3% to \$309.8 million for the First Quarter 2025 compared to \$301.2 million for the prior year period. Gross margin contracted 30 basis points to 33.0%, due to lower price

realization and higher freight expense, partially offset by positive contributions from acquisitions.

Selling, general and administrative expenses ("SG&A") for the First Quarter 2025 increased to \$343.2 million from \$327.7 million for the prior year period. SG&A as a percentage of Net sales increased 30 basis points to 36.5% due primarily to the impact of acquisitions. SG&A for the Base Business decreased 3% on an adjusted basis compared to the prior year period.

Net loss attributable to SiteOne for the First Quarter 2025 was \$27.3 million, compared to \$19.3 million for the same period in the prior year due to higher SG&A expenses, partially offset by higher Net sales.

Adjusted EBITDA¹ for the First Quarter 2025 increased 6% to \$22.4 million, compared to \$21.1 million for the prior year period. Adjusted EBITDA margin improved 10 basis points to 2.4%.

Net debt, calculated as long-term debt (net of issuance costs and discounts) plus finance leases, net of Cash and cash equivalents on our balance sheet as of March 30, 2025, was \$580.4 million compared to \$508.0 million as of March 31, 2024. Net debt to Adjusted EBITDA¹ for the last twelve months was 1.5 times compared to 1.3 times for the prior year period.

As of March 30, 2025, Cash and cash equivalents was \$56.6 million and available capacity under the ABL Facility was \$467.7 million.

1. Adjusted EBITDA includes contribution from non-controlling interest of \$0.3 million for the First Quarter 2025.

Outlook

"While the direct impact of tariffs is relatively small and manageable, the potential impact of ongoing uncertainty related to tariffs, inflation, and interest rates on consumer confidence and end market demand remains to be seen. Against this backdrop, we expect commodity price deflation to continue moderating in 2025 with declines in products like PVC pipe mitigated by increases across our other products. Overall, with the impact of tariffs, we currently expect pricing, which was down 1% in the first quarter, to be flat to slightly up for the full year 2025," Black continued. "In terms of end markets, we expect overall demand to be flat to slightly down with solid growth in maintenance, which represents 35% of our business, continued soft repair and upgrade demand, and resilient but uncertain demand in new residential and new commercial construction. With the benefit of our commercial initiatives, we continue to expect sales volume to be positive, yielding low single-digit Organic Daily Sales growth for the full year. With the strong actions taken in 2024 to reduce cost combined with our operational initiatives, ongoing SG&A management, and contributions from acquisitions, we continue to expect to increase Adjusted EBITDA margin in 2025."

Given these trends, we continue to expect our full year Adjusted EBITDA to be in the range of \$400 million to \$430 million. Our guidance does not include any contributions from unannounced acquisitions.

Reconciliation for the forward-looking full year 2025 Adjusted EBITDA outlook is not being provided, as the Company does not currently have sufficient data to accurately estimate the variables and individual adjustments for such reconciliation.

Forward-Looking Statements

This release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may include, but are not limited to, statements relating to our acquisition pipeline, organic and acquisition growth, and 2025 Adjusted EBITDA outlook. Some of the forward-looking statements can be identified by the use of terms such as "may," "intend," "might," "will," "should," "could," "would," "expect," "believe," "estimate," "anticipate," "predict," "project," "potential," or the negative of these terms, and similar expressions. You should be aware that these forward-looking statements are subject to risks and uncertainties that are beyond our control. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors emerge from time to time that may cause our business not to develop as we expect, and it is not possible for us to predict all of them. Factors that may cause actual results to differ materially from those expressed or implied by the forward-looking statements include, but are not limited to, the following: cyclicalities in residential and commercial construction markets; general business, financial market, and economic conditions including challenges created, in part by the imposition of U.S. tariffs and broader geopolitical conflicts, and the resulting economic concerns, market fluctuations, declines in consumer sentiment and impact on the price, and demand for, our products; severe weather and climate conditions; seasonality of our business and its impact on demand for our products; prices for the products we purchase may fluctuate including as a result of commodity price deflation; market variables, including inflation and elevated interest rates for prolonged periods; increases in operating costs; climate, environmental, health and safety laws and regulations; hazardous materials and related materials; laws and government regulations applicable to our business that could negatively impact demand for our products; public perceptions that our products and services are not environmentally friendly or that our practices are not sustainable; competitive industry pressures, including competition for our talent base; supply chain disruptions (including as a result of the imposition of U.S. tariffs), product or labor shortages, and the loss of key suppliers; inventory management risks; ability to implement our business strategies and achieve our growth objectives; acquisition and integration risks, including increased competition for acquisitions; risks associated with our large labor force and our customers' labor force and labor market disruptions; retention of key personnel; construction defect

and product liability claims; impairment of goodwill; adverse credit and financial markets events and conditions; inefficient or ineffective allocation of capital; credit sale risks; performance of individual branches; cybersecurity incidents involving our systems or third-party systems; failure or malfunctions in our information technology systems; security of personal information about our customers; intellectual property and other proprietary rights; unanticipated changes in our tax provisions; threats from terrorism, violence, uncertain political conditions, and geopolitical conflicts such as the ongoing conflict between Russia and Ukraine, the conflict in the Gaza Strip, and unrest in the Middle East; risks related to our current indebtedness and our ability to obtain financing in the future; financial institution disruptions; risks related to our common stock; and other risks, as described in Item 1A, “Risk Factors”, and elsewhere in our Annual Report on Form 10-K for the fiscal year ended December 29, 2024, as may be updated by subsequent filings under the Securities Exchange Act of 1934, as amended, including Forms 10-Q and 8-K.

Non-GAAP Financial Information

This release includes certain financial information, not prepared in accordance with U.S. GAAP. Because not all companies calculate non-GAAP financial information identically (or at all), the presentations herein may not be comparable to other similarly titled measures used by other companies. Further, these measures should not be considered substitutes for the information contained in the historical financial information of the Company prepared in accordance with U.S. GAAP that is set forth herein.

We present Adjusted EBITDA in order to evaluate the operating performance and efficiency of our business. Adjusted EBITDA represents EBITDA as further adjusted for items permitted under the covenants of our credit facilities. EBITDA represents Net income (loss) plus the sum of income tax expense (benefit), interest expense, net of interest income, and depreciation and amortization. Adjusted EBITDA represents EBITDA as further adjusted for stock-based compensation expense, (gain) loss on sale of assets and termination of finance leases not in the ordinary course of business, financing fees, as well as other fees and expenses related to acquisitions, and other non-recurring (income) loss. Adjusted EBITDA includes Adjusted EBITDA attributable to non-controlling interest. Adjusted EBITDA does not include pre-acquisition acquired Adjusted EBITDA. Adjusted EBITDA is not a measure of our liquidity or financial performance under U.S. GAAP and should not be considered as an alternative to Net income, operating income or any other performance measures derived in accordance with U.S. GAAP, or as an alternative to cash flow from operating activities as a measure of our liquidity. The use of Adjusted EBITDA instead of Net income has limitations as an analytical tool. Because not all companies use identical calculations, our presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies, limiting its usefulness as a comparative measure. Net debt is defined as long-term debt (net of issuance costs and discounts) plus finance leases, net of Cash and cash equivalents on our balance sheet. Leverage Ratio is defined as Net debt to trailing twelve months Adjusted EBITDA. Free Cash Flow is defined as Cash Flow from Operating Activities, less capital expenditures. Base Business is defined as SiteOne operations excluding acquired branches that have not been under our ownership for at least four full fiscal quarters at the start of the fiscal year. We define Organic Daily Sales as Organic Sales divided by the number of Selling Days in the relevant reporting period. We define Organic Sales as Net sales, including Net sales from newly-opened greenfield branches, but excluding Net sales from acquired branches until they have been under our ownership for at least four full fiscal quarters at the start of the fiscal year. Selling Days are the number of business days, excluding Saturdays, Sundays, and holidays, that SiteOne branches are open during the relevant reporting period.
