ROSWELL, Ga.--(BUSINESS WIRE)-- SiteOne Landscape Supply, Inc. (the "Company" or "SiteOne") (NYSE:SITE) announced earnings for its second quarter ended July 2, 2017 ("Second Quarter 2017").

"We are pleased with our performance during the second quarter as we achieved growth across our business and delivered improved profitability. The strong second quarter results were consistent with the selected preliminary results that we released ahead of our successful secondary stock offering in July," said Doug Black, SiteOne's Chairman and CEO. "We continue to execute on our strategic initiatives, invest for the future, and see favorable end-market conditions and a healthy acquisition pipeline supporting our performance and growth going forward."

Second Quarter 2017 Results

Net sales for the second quarter of 2017 increased to \$608.6 million, or 19%, compared to \$513.4 million for the prior-year period. Organic Daily Sales increased 8% in the second quarter compared with the prior-year period. Organic Daily Sales in the second quarter reflects strong growth across multiple product lines as well as normal seasonal patterns. Acquisitions contributed \$53.7 million in sales, or 10%, to total net sales growth for the quarter.

Gross profit increased to \$202.4 million, or 20%, compared to \$168.5 million for the prior-year period. Gross margin improved by 50 bps to 33.3% for the second quarter of 2017. The gross margin improvement was primarily driven by our category management initiatives.

Selling, general and administrative expenses ("SG&A") in the second quarter increased to \$126.6 million from \$118.0 million in the same period last year. The increase in SG&A for the quarter was

driven by acquisitions and additional staff and operating expenses to support our organic growth and strategic initiatives. SG&A as a percent of net sales decreased to 20.8% compared to 23.0% for the second quarter of 2016 due to the growth in revenue as well as the absence of IPO and refinancing related costs compared to the prior-year period.

Net income for the second quarter was \$44.2 million, compared to net income of \$26.9 million during the same period in the prior year. The increase in net income for the quarter is attributable to higher net sales, improved profitability and the absence of costs related to the IPO and refinancing.

Adjusted EBITDA was \$92.3 million for the second quarter of 2017, compared to \$74.9 million for the prior-year period.

Outlook

For 2017, we continue to expect Adjusted EBITDA to be in the range of \$155 million to \$165 million.

Reconciliation for the forward-looking full-year 2017 Adjusted EBITDA outlook is not being provided, as the Company does not currently have sufficient data to accurately estimate the variables and individual adjustments for such reconciliation.

Forward-Looking Statements

This release contains "forward-looking statements" within the meaning of the Federal Private Securities Litigation Reform Act of 1995. Forward-looking statements may include, but are not limited to, statements relating to our 2017 Adjusted EBITDA outlook. Some of the forward-looking statements can be identified by the use of terms such as "may," "intend," "might," "will," "should," "could," "would," "expect," "believe," "estimate," "anticipate," "predict," "project," "potential," or the negative of these terms, and similar expressions. You should be aware that these forward-looking statements are subject to risks and uncertainties that are beyond our control. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is

made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors emerge from time to time that may cause our business not to develop as we expect, and it is not possible for us to predict all of them. Factors that may cause actual results to differ materially from those expressed or implied by the forward-looking statements include, but are not limited to, the following: cyclicality in residential and commercial construction markets; general economic and financial conditions; weather conditions, seasonality and availability of water to end-users; laws and government regulations applicable to our business that could negatively impact demand for our products; public perceptions that our products and services are not environmentally friendly; competitive industry pressures; product shortages and the loss of key suppliers; product price fluctuations; inventory management risks; ability to implement our business strategies and achieve our growth objectives; acquisition and integration risks; increased operating costs; and other risks, as described in Item 1A, "Risk Factors," and elsewhere in our Annual Report on Form 10-K for the fiscal year ended January 1, 2017.

Non-GAAP Financial Information

This release includes certain financial information, not prepared in accordance with U.S. GAAP. Because not all companies calculate non-GAAP financial information identically (or at all), the presentations herein may not be comparable to other similarly titled measures used by other companies. Further, these measures should not be considered substitutes for the information contained in the historical financial information of the Company prepared in accordance with U.S. GAAP that is set forth herein.

We present Adjusted EBITDA in order to evaluate the operating performance and efficiency of our business. Adjusted EBITDA represents EBITDA as further adjusted for items permitted under the covenants of our credit facilities. EBITDA represents our Net income (loss) plus the sum of Income tax (benefit), Depreciation and amortization and interest expense, net of interest income. Adjusted EBITDA is also adjusted for stock-based compensation expense, related party advisory fees, (gain) loss on sale of assets, other non-cash items and other non-recurring (income) loss. Adjusted EBITDA does not include pre-acquisition acquired Adjusted EBITDA of any acquired company. Adjusted EBITDA is not a measure of our liquidity or financial performance under GAAP and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with GAAP, or as an alternative to cash flow from operating activities as a measure of our liquidity. The use of Adjusted EBITDA instead of net income has limitations as an analytical tool. Because not all companies use identical calculations, our presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies, limiting its usefulness as a comparative measure. Net debt is defined as long-term debt (net of issuance costs and discounts) plus capital leases, net of cash and cash-equivalents on our balance sheet. Leverage Ratio is defined as Net Debt to the trailing twelve months Adjusted EBITDA. We define Organic Daily Sales as Organic Sales divided by the number of Selling Days in the relevant reporting period. We define Organic Sales as Net sales, including Net sales from newly-opened greenfield stores, but excluding Net sales from acquired stores until they have been under our ownership for at least four full fiscal quarters at the start of the fiscal year. Selling Days are the number of business days, excluding Saturdays, Sundays and holidays, that SiteOne branches are open during the relevant reporting period.
